We are Washington's only statewide non-profit association focusing on independent lodging properties.

We are dedicated to member success through **education**, **advocacy** and **connection**.

Our consumer-facing website is a unique tool providing guests with "INNSider" information on visiting Washington State and the ability to easily **book direct** with member inns. Learn more about this and other innovations we've been implementing at this year's conference.

Watch your email inbox for reminders in upcoming editions of our **InnStep Newsletter**.
